UNCLASSIFIED

Training Readiness is a function of Performance 'P' and Experience 'E'. Each event listed in the table has requirements for both, which, as a product, derive the training figure of merit (TFOM) reported to DRRS-S. 'E' credit is gained when the event is reported completed through CV-SHARP. 'P' credit grade is earned when the event is assessed (generally by an external agency using the associated Training and Assessment Card (TAC) and logged in CV-SHARP.

Conditions

These are the conditions that must be met in order to asses the TAC for P. these conditions need not be met when exercised for E

Teams for E

This is the minimum number of teams of each type the CVN must have onboard and built within CV-SHARP

Measures of Performance

These are the specific instructions on how to complete this serial. Details the specifics of the training and how it will be graded for P.

	A TEST TEAM			~

Common Mistake when building teams: Once the team name have been entered, make sure the correct Team Type is associated with that team. For example; If you build a team named Air-Operations and link it to the Team Type of AC&R that will result in the wrong primary team for each sub-event Air OPS is responsible for. This will cause a severed degradation in the overall WARFARE AREA for the ship.

Editing Team members is primarily used for teams that remain static and only requires occasional moving of personnel. If your teams are not static there is NO need to continue to use this area each time you want to log training. The system will allow any team member with an updated PRD to be placed in a role at the Log Training page.

Review Personnel and Training accomplished prior to submitting to DRRS-S.

To make changes, click the Edit Log button. Click the Submit button when finished. Note that the log can be exported to Excel with the Export button

The Departmental Experience Report gives you a comprehensive Look at what your teams and personnel of those teams have accomplished. To determine how many times a team must complete a training event (Sub-Event), you "MUST" expand down to the individual on that team. This number should match the requirement of the CVN TRAMAN.

*NOTE** The Department Experience Report only gives a look at the teams that are statically built in the system.

UNCLASSIFIED User: CORP\joinerel Carrier: USS RONA	LD REAGAN (CVN 76) (Phase: Sustainme	ent) Session Time: 9.8	Users: :									

This report shows the current Experience level of each member of the team, last date when the Sub-Event was completed and when it will expire. Use this report to manage assigned personnel to each required team, and any additional team IAW ships watchbills.

Team Details												
X Export												
Team Name												
- Tactical Operations Plot TOP Team A												
Team Member	Performed	Last Completed Date	Expiration									
DDRT Plotter - JONATHAN, FRANK DEAN - AGAN	1/9	09/20/2017	03/19/2018									
JL Phone Talker - MAXWELL, STUART KEVIN - ETCS	1/9	09/20/2017	03/19/2018									
Radar Log Keeper -												
SPA-25G Operator - JORGE, ASHLEY S - ABH1	1/9	09/20/2017	03/19/2018									
SSDS Console Operator - TOP -												
TOP Supervisor - ANGELO, CURLY - CTRSN	1/9	09/20/2017	03/19/2018									

- This is not CNAF dictating a priority order
- Simply a tool for CVN's to be able to:
 - > Better understand/explain their readiness reporting
 - > See how training plans will affect reporting
- Essentially a "DRRS-S decoder ring!"
- Meant to help CVN's better understand / control their DRRS-S reporting
- Not meant to dictate training order
- Will be incorporated into CV-SHARP 3.0
- Meant to help DEPT's prioritize their training (PB4T / ITT)
